

Enclosed is the “fully documented” corruption committed by Harris Bock, the Arbitrator assigned to hear the lawsuit against the defendant Travelers Insurance, a publicly traded insurance company with a fiduciary obligation, and myself an individual representing myself as Pro se in an auto injury claim requiring 6 life-threatening spine operations to be able to walk again.

The corrupt hand-picked expert witness Dr. Fedder hired by Travelers, corruptly stated my devastating spine injury was a minor lumbar strain that would heal in 6 to 8 weeks without surgery.

Well Bock, Fedder slightly miscalculated, rather than healing in 6 to 8 weeks without surgery, it's now 6 years later, 6 spine operations later, living in a rehabilitation hospital learning to walk again, in need for daily rehabilitation that I cannot afford since this corruption has left me in debt to Medicare for \$300,000.00, future medical care \$400,000.00, liens, but not limited to the above. Bock, how the **HELL** could you with a clear conscious reject my request to bar Fedder's fraudulent expert witness report corruptly stating it is a minor lumbar strain expected to heal in 6 to 8 weeks, without the need for surgery?

Bock, your “**fully documented**” corruption protecting Travelers is overwhelming and despicable, and how dare you pass another biased ruling enabling Travelers to use Fedder's fraudulent expert witness report in their defense, to illegally deny my injury claim requiring 6 agonizing life-threatening spine operations that clearly constitutes **felony offenses!** Despite the “**fully documented**” fraud and corruption committed by the Arbitrator Harris Bock, he is **astonishingly still allowing Travelers** to use this enclosed fraudulent testimony in Travelers defense that constitutes felony **offenses!!!**
